

Welcome to Bertelsmann Next Generation Tech Booster Challenge Program

We're so excited to have you join us in this program! Along this journey, you'll learn indispensable technical skills that are necessary to have in today's tech industry.

Program Components

Technical Content

Certification Assessment

Phase One - The Challenge

You are currently enrolled at this phase, and the program is structured as follows:

- **Technical Content:** Access the technical content for your chosen track directly in the Udacity classroom. This material will be available throughout the program to support your learning journey.
- **Certification Assessment:** Successfully passing the certification assessment is required to earn your Certificate of Completion for this track. Detailed information about the assessment is available in the "Certification Assessment" section in your classroom.
- **Online Community:** During this phase, you'll have access to an online community platform where you can seek support from fellow students and tutors to overcome learning challenges or to network.

Moving to Phase Two - The Nanodegree

After completing Phase One of the program, you will be eligible to advance to Phase Two, the **Nanodegree Program**, if you meet the following selection criteria:

- **100% Completion of the Challenge Course by February 12, 2025:** This includes finishing all lessons, videos, and quizzes.
- **Passing the Certification Assessment:** You will be able to take the Certification Assessment, as well as reattempting it (when you don't pass it) from within your classroom, as long as you're still within your allowed duration in the program.

Students with the highest scores on the Certification Assessment will receive priority for Nanodegree Program selection.

Stay focused, work hard, and enjoy the journey—this is going to be a fun and rewarding experience!
